Big Data, Governance and MDM

DAMA-NY events bring together the best and the brightest to present and discuss the new strategies which are changing the way business is done in the information age. This seminar's topic is:

"How to develop a sustainable Enterprise Data Strategy by deploying MDM, Data Stewardship/Data Governance and a Big Data program".

Meet with industry experts Dave Majcher, Robert Seiner, Dave Loshin and find out why MDM, Data Governance/Data Stewardship and Big Data have a major impact on sustaining an Enterprise Data Strategy.

DAMA-NY is the organization for business executives with information needs, for information managers who must be aware of emerging management techniques, and for information management professionals who wish to acquire the latest skills.
