

## An IBM Cognos Partner

FYI Solutions is a premier provider of Business Analytics solutions.

We are an authorized IBM Business Analytics software reseller. We determine the best software configuration for your organization, including new products and product upgrades. And we can process product and support renewals at a great price.

As a certified IBM Cognos Partner, we've had proven success in implementing the full spectrum of business analytics capabilities including reporting, analysis, planning, score-carding, dashboards, business event management as well as data integration, on a unified, proven architecture.

Additionally, FYI Solutions offers specific services within the Business Analytics practice such as discovery, quick-mart, data warehouse assessment and vendor/tool evaluation. Our significant experience in Business Analytics enables FYI Solutions to deliver powerful systems that give our clients comprehensive understanding of the factors affecting their business performance and enables better decision-making across the enterprise.

### Market / Industry Specialty:

### Quality, Integrity and Trust

FYI Solutions is committed to unwavering integrity and to maintaining the highest standards of ethics and quality in every engagement.

Our open communication, responsiveness, accountability and reliability have made us a trusted and respected partner to our valued clients.

- Founded and led by business technology professionals with 27 years of industry experience
- Recognized as an Advanced Level: IBM Business Partner and recipient of Cognos' prestigious North America Industry Solution Award
- Experienced in delivering successful BI Optimization engagements to satisfied clients across industries

### About FYI Solutions

At FYI Solutions, we have a mission: to unlock the power of your business intelligence investment. By studying your business environment—from processes to information flow to data architecture—we identify and strengthen weak links throughout your entire reporting ecosystem in order to boost the productivity of your information delivery system. In the end, you'll access the data you need more easily, efficiently, and powerfully. Simply put, you'll have increased your ROI—that is, your return on intelligence.
